## EXPLANATION OF SYMBOLS

-----

The location of names inscribed on the exterior of the building is indicated as follows:

The three facades on Blagden, Dartmouth and Boylston streets are represented by initial letters thus:

Bl.     (Blagden)  
Bo.     (Boylston)  
D.     (Dartmouth)

The windows in each facade are numbered from left to right. Thus the reference for Joseph Addison is D. 10, meaning that his name will be found among those inscribed on the tablets under the tenth window from the left in the Dartmouth Street facade.

CEILING   means the name is among those in the mosaic design on the ceiling of the Entrance Hall.

FLOOR    means the name is among those set in brass in the floor of the Entrance Hall at the foot of the stairs.

BATES F. means the name is among those inscribed on the frieze in Bates Hall.

V.L.     means the name is among those painted in the niches of the Venetian Lobby.

ART      means the name is among those inscribed on the pedestal of Bela Pratt's statue representing Art on the platform in front of the building.

SCIENCE refers in the same way to the statue representing Science.

The location of busts, portraits and statuary is usually stated in full. The busts in Bates Hall are assigned numbers from one to twenty-seven. The first one in numerical order (Henry James) is in the south end of the hall on the west side. Numbers indicate order of busts from left to right around the Hall.

The index lists the names of five hundred and ninety-five individuals.
